

## Digital Moisture Meter

**LabNet-P5**

### LabNet-P5 digital portable moisture meter for 37 kinds grains

The meter shows the material moisture content in weight %. Measurement is based on the alternating current resistance (capacitance). The measurement readability is +/- 0,5% or better.

### Standards:

Grain ISO 712, Oil seeds ISO 665, Corn ISO 6540.

Method to sample the grain is based on ISO 950 standard and handling the samples follow ISO 7700/1 and ISO 7700/2

### Features:

1. Measure and get average moisture value of 37 kinds of grains/seeds in the list
2. The name of the currently selected grain can appear on the display, quite Intelligent and easy to operate
3. The meter can automatically calculate the moisture content and stored in memory
4. It allows to make a +/- adjustment to the measurement for all readings of a grain to be consistent with the grain dealers equipment
5. Power will switch off automatically in 30 seconds
6. Language: Multi-language:
7. UK(English),PL(Polish),ES(Spanish),RO(Romanian),RU(Russian), UA(Ukrainian), IND(Indonesian)

## Main Specifications:

Model	LabNet-P5
Brand	LabNet
Moisture measurement range	Grain and seeds 8-35% Oil seeds 5-25%
Temperature measurement	0-60°C: (optional with extra charge 20USD)
Battery	9V battery
Working Temperature	0-40°C
Display	LCD
Certification:	CE marks
Measuring Time	≤10 seconds
Warranty	12 months
List of Material	37kinds: Rapeseed, Wheat, Spring Barley, Field bean, Corn, Winter Barley, White Oats, Buckwheat, Black Oats, Hard Wheat, Rice, Paddy, Sorghum, Soybean, Sunflower, Sesame, Cottonseed, Canola, Peanuts, Watermelon seed, Coffee beans, Cacao beans, Radish seeds, Vanilla, Tea, White Pepper, Black Pepper, Cashew Nut, Herbs, Millet, Barley, Peas, Chopped Peas, Rye, Bran, Wheat groats, Pearl barley
Temperature Adjusting	Automatically
Function	Moisture Content
<u>Place of Origin</u>	China
